

CO2 Coalition

Providing the facts about CO2 and climate change

"The CO2 Coalition was established in 2015 as a non-partisan educational foundation operating under Section 501(c)(3) of the IRS code for the purpose of educating thought leaders, policy makers, and the public about the important contribution made by carbon dioxide to our lives and the economy. The Coalition seeks to engage in an informed and dispassionate discussion of climate change, humans' role in the climate system, the limitations of climate models, and the consequences of mandated reductions in CO2 emissions." (taken from www.co2coalition.org)

Donors to CO2 Coalition are strongly opposed to the collective agenda of Big Tech, mainstream media, and the Green Lobby, and look to strengthen the understanding of the role of science and the scientific process in addressing complex public policy issues.
