The CO2 Coalition, founded in 2015 as a 501(c)(3) educational foundation, champions honest, science-based dialogue on climate change and the vital role of carbon dioxide in our economy and environment. By exposing the flaws in climate alarmism and highlighting the consequences of extreme CO2 reduction mandates, the Coalition equips policymakers and the public with facts—not fear.

Donors to the CO2 Coalition give generously to fight back against the powerful alliance of Big Tech, the Green Lobby, and the mainstream media. Their support funds research, public education campaigns, and outreach efforts that restore scientific integrity, protect energy freedom, and defend common-sense environmental policies
